

Food Revolution

Venice-Mestre, Italy **2026**
11-13 May

*Second
edition*

*Science-based actions
for health and sustainability*

CONFERENCE BROCHURE

www.foodrevolution.events

SCIENCE-BASED ACTIONS FOR HEALTH AND SUSTAINABILITY

Join us

FoodRevolution is the international conference that aims to reshape our agri-food system through an innovative format.

Several hundreds of experts will converge in beautiful Venice. Join us to meet with the leaders in the field.

Together, we'll explore groundbreaking innovations and forge lasting partnerships that will revolutionize how we produce, distribute, and consume food globally.

Why our event is unique and disruptive

Science and business meeting point

Gathering leading scientists, researchers, and business leaders to drive innovation

Bridging interests

Connecting traditional food producers, emerging food tech companies and retailers

Addressing global challenges

Exploring solutions for food security and sustainability in low-income countries

Food nutritional value and safety

Ensuring the nutritional integrity and safety of the global food supply

THE PERFECT BLEND OF CONVENIENCE AND CHARM

JOIN US IN MESTRE, THE GATEWAY TO VENICE

PRACTICAL ACCESSIBILITY

Easy transportation:

- Proximity to Venice Marco Polo Airport
- High-speed trains
- Easy highways access

PLUS Direct trains to Venice (just 10 minutes away)

Accommodations galore: a variety of hotels, guesthouses, and serviced apartments available, catering to different budgets and preferences.

CULTURAL PROXIMITY

Attendees will find ample opportunity to immerse themselves in Venice's rich culture and history during their free time, creating unforgettable memories in the most unique city in the world.

OUR PREVIOUS EDITION

In 2024, the conference adopted a holistic approach to the future of food, highlighting the vital links between *sustainability*, *safety*, and *health*.

This first edition of FoodRevolution was a joint initiative between Affidia and Bastiaanse Communication.

DESIGNED FOR

- Agri-food industries
- Ingredients & raw materials suppliers
- Food & beverages manufacturers
- Packaging industries
- Traders
- Retailers
- Farmers associations
- Industries associations
- Contract research companies
- Service laboratories
- Certification bodies
- Quality standard owners
- Media

WHO SHOULD ATTEND

- Food technologists
- Agronomists
- Biotechnologists
- Sustainability managers
- Laboratory heads
- Regulatory experts
- Veterinarians
- R&D managers
- Scientists
- Journalists
- Investors

7 REASONS TO PARTICIPATE

to assess the **added value** of sustainable and regenerative agriculture practices.

to outline strategies and suppliers for **enhancing the sustainability of your supply chain**.

to share the results of your research, find **partners for future projects**, and connect with industry stakeholders.

to **showcase your products** and services, build relationships with buyers, and explore new market opportunities.

to **promote your standards**, and shape the future of sustainable practices in the industry.

to find investors, and potential **partners for growth** and innovation.

to connect with industry decision-makers, and **advocate for positive change**.

Conference overview

Biotechnologies

New EU regulations

Circular bioeconomy

Focus on

Voluntary standards

Food safety issues

Sustainability schemes

May 11

The future of agriculture

May 12

**Climate friendly food chain
and food products**

May 13

**Develop, control and
promote new foods**

Our three-day event will
feature:

14 sessions

65 speakers

11 expert panels

Plus Interactive poster
sessions and
seminars

Single-day tickets available

Proceedings of the conference (**hardcopy**) included in PREMIUM tickets

Agenda Highlights

Topic of the day and sessions

May
11

The future of agriculture

- [Session 1](#) Towards a more sustainable agriculture
- [Session 2](#) Soil health and fertilizers
- [Session 3](#) Biotechnologies for resilient and high-yield crops

May
12

Climate friendly food chain and food products

- [Session 4](#) Sustainable livestock
- [Session 5](#) Sustainable food packaging
- [Session 6](#) Circular bioeconomy I
- [Session 7](#) Carbon farming, carbon credits
- [Session 8](#) Climate-friendly food chains, EUDR
- [Session 9](#) Precision fermentation
- [Session 10](#) Circular bioeconomy II

May
13

Develop, control and promote new foods

- [Session 11](#) New plant-based foods: quality and nutritional value
- [Session 12](#) Quality and Safety of new and Novel Foods
- [Session 13](#) Towards an EU ecolabelling for food products
- [Session 14](#) Green claims, green washing, EU CSRD, ESG reporting

Main session format

SCIENCE

Presentations by leading scientists

Q&A

Q&A session with the speakers

PITCHES

Short communications

PANEL

Discussion among industry experts and associations

Regenerative agriculture: do we need a gold standard for it? **01.**

Climate friendly agriculture: who can finance the transition? **02.**

Can gene edited crops be integrated with organic agriculture? **03.**

How to reduce the GHG emissions of the dairy sector **04.**

Towards safe and sustainable packaging **05.**

Circular Bioeconomy: opportunities and risks **06.**

Can carbon credits be a source of income for the EU farmers? **07.**

How to guarantee the integrity of the deforestation projects? **08.**

Precision fermentation products: any future as dairy alternatives? **09.**

The future of plant-based food products **10.**

Can the retail sector fuel the transition to a more sustainable food system? **11.**

Prof.
Michele Morgante

University
of Udine

Prof.
Chris Elliott

International
Joint Research
Center on
Food Security

Prof.
Teja Tcharntke

University
of Göttingen

Prof.
Chiara Dall'Asta

University
of Parma

Prof.
Annamaria Bevivino

ENEA

These featured speakers are just the beginning—more experts are joining us to share their insights and innovations!

An exceptional group of thought leaders from academia will be joined by numerous industry experts, all dedicated to advancing the debate on food sustainability, security, safety and health.

NETWORKING & COLLABORATION

Easy matching

connections via event app

Community building

Collaboration opportunities pre- and post-conference

Partner meetings

R&D projects satellite meetings

Social times

Welcome party, coffee-breaks and lunch breaks

**Register, you
will get more!**

FREE access to
pre- and post-
event **WEBINARS**
and specialized
follow-up
sessions

Business area

20+

Exhibitors

Leading companies will showcase their products or services

4+

Seminars

Commercially available innovative solutions

15+

Pitches

Selected R&D and startups pitches
